1 About Cyfrin

Cyfrin is a Web3 security company dedicated to bringing industry-leading protection and education to our partners and their projects. Our goal is to create a safe, reliable, and transparent environment for everyone in Web3 and DeFi. Learn more about us at cyfrin.io.

2 About This Document

This document is a public summary of the security audit Cyfrin performed for BENQI on BENQI Governance. It records the repositories and commits reviewed, the timeline, auditors, in-scope files, and the number and final status of findings by severity. It closes with Cyfrin's attestation of the review's scope and final remediation status.

It is deliberately abbreviated: the technical detail of individual findings is not reproduced here. The complete audit report, version 2.0 dated November 10, 2025, was delivered to BENQI, who retain it as the full record of the engagement. This summary was issued on October 29, 2026.

3 Disclaimer

The Cyfrin team makes every effort to find as many vulnerabilities in the code as possible in the given time but holds no responsibility for the findings in this document. A security audit by the team does not endorse the underlying business or product. The audit was time-boxed and the review of the code was solely on the security aspects of the in-scope code being audited. Unless the scope explicitly notes otherwise, the review is limited to the application layer and does not extend to the correctness of API/SDK/execution environment implementations, compilers, standard and third-party libraries, underlying operating systems and hardware.

4 Copyright and License

This summary may be shared only in complete and unmodified form, so that any copy can be checked against the hash in its attestation. Short quotations with attribution to Cyfrin are permitted, provided they do not misrepresent this summary's scope or results. Except as permitted by applicable law, no part of this summary may otherwise be copied, modified, adapted, sold or sublicensed, or used to create derivative works, without Cyfrin's prior written permission.

Cyfrin and the Cyfrin logo are trademarks of Cyfrin Inc. and may not be used to suggest that Cyfrin has reviewed or endorses anything outside this summary's scope, or to misrepresent its results.

5 Audit Overview

Over the course of 10 days, the Cyfrin team conducted an audit on the BENQI Governance code provided by BENQI. The findings consist of 11 Low severity issues with the remainder being informational and gas optimizations.

Summary

Project Name	BENQI Governance
Repository	benqi-governance
Commit	ded42b671f11...
Audit Timeline	Sept 29th - Oct 10th, 2025
Methods	Manual Review

Issues Found

Severity	Found	Resolved	Acknowledged
Critical Risk	0	0	0
High Risk	0	0	0
Medium Risk	0	0	0
Low Risk	11	4	7
Informational	5	3	2
Gas Optimizations	5	2	3
Total	21	9	12

6 Audit Scope

The audit scope was limited to:

```
benqi-governance/src/contracts/BenqiCoreModule.sol
benqi-governance/src/contracts/BenqiEcosystemModule.sol
benqi-governance/src/contracts/CallerId.sol
benqi-governance/src/contracts/Clock.sol
benqi-governance/src/contracts/DistributionManager.sol
benqi-governance/src/contracts/DistributionManagerSetup.sol
benqi-governance/src/contracts/ExecuteSelectorCondition.sol
benqi-governance/src/contracts/GaugeRegistrar.sol
benqi-governance/src/contracts/SpeedCalculator.sol
benqi-governance/src/contracts/UnifiedBudgetAllocator.sol
```

7 Risk Classification

	Impact: High	**Impact: Medium**	**Impact: Low**
Likelihood: High	Critical	High	Medium
Likelihood: Medium	High	Medium	Low
Likelihood: Low	Medium	Low	Low

8 Protocol Summary

The BENQI governance contracts integrate vote-escrow gauges and optimistic token voting to coordinate incentive emissions for both core and ecosystem markets. Modular governance is enabled through Aragon OSx infrastructure, which provides flexible, transparent and on-chain coordination between liquidity incentives and protocol policy management.

9 Attestation

Cyfrin attests that it performed a security review of the BENQI Governance code provided by BENQI.

The repositories, commits, review period and findings with their final status are in the Summary and Issues Found tables in Section 5, and the in-scope files in Section 6. This attestation is limited to the documented scope, audited commits and mitigations specifically reviewed by Cyfrin.

Cyfrin publishes this document and its SHA-256 hash at https://github.com/Cyfrin/cyfrin-audit-reports. To check a copy on macOS or Linux, run the following in the folder that contains it; it prints `OK` when the copy matches. If the copy was renamed, set F to its file name. Before running it, check that the URL is Cyfrin's repository.

```
U=https://github.com/Cyfrin/cyfrin-audit-reports/raw/main/reports/sha256
N=2025-11-10-cyfrin-benqi-governance-v2.0.pdf
F=$N
H=$(curl -fsSL $U/$N.sha256 | cut -d' ' -f1)
echo "$H *$F" | shasum -a 256 -c
```

Cyfrin's full audit report with all findings provided to BENQI has the SHA-256 hash and file name below. To check a copy of it, first check this document as above, then run the following in the folder that contains the full report; it prints `OK` when the copy matches. If the copy was renamed, set F to its file name.

```
H=dd1ac726e8088bda57191043993fd9eba126f358d44156344d2ed3b56bc48128
F=2025-11-10-cyfrin-benqi-governance-v2.0-full.pdf
echo "$H *$F" | shasum -a 256 -c
```

On Linux, `sha256sum -c` can be used in place of `shasum -a 256 -c`. On Windows, run `Get-FileHash <file> -Algorithm SHA256` in PowerShell and compare the result with the hash.
